# FOREWORD

Zimbabwe is now a home of innovation and creativity. Government under the Second Republic introduced policies and programmes under the National Development Strategy 1 to revive the manufacturing and commercial sectors. These policies provided a foundation and framework for local manufacturers to produce competitively so that they meet demand, reduce the import bill and explore the export market.

It is exciting to note that a number of amazing products have hit the local market and are making us proud. So far, shelf space occupancy for local products is above 80% and must continue to rise. These achievements that comes with producing our own products need to be celebrated. The companies and firms behind this success must be recognised and we have seen it befitting to produce this information directory to become an accessible database to help improve the ease of doing business and to create a convenient platform to enhance business networking. As we approach National Development Strategy 2, we are delighted to showcase the best of Zimbabwe's creativity, innovativeness, and craftsmanship through the products manufactured locally.

*Hon. N.M. Ndhlovu*

*Minister of Industry and Commerce*

## **Permanent Secretary's Statement**

The Ministry of Industry and Commerce continues to pursue excellence and one of the methods under implementation is coming up with a comprehensive Local Content Strategy that will enhance local production of goods. In order to effectively implement this strategy, the Ministry working with the private sector across all provinces created a database of manufacturers to promote ease access by stakeholders. The Ministry believes that this database will go a long way into strengthening business to stakeholder/client connectivity.

*Dr. T.U. Wushe*

*Permanent Secretary*

# PRODUCTS MANUFACTURED IN ZIMBABWE

## 1.0 INTRODUCTION AND BACKGROUND

1.1 Zimbabwe produces a wide range of products from heavy to light industry including agro-processing; electrical & metals; leather products; iron & steel products, pharmaceuticals; clothing & textiles among others, representing authenticity, craftsmanship, and national pride. The locally produced products are estimated to be approximately 7 000 products, reflecting the nation's creativity, culture, and entrepreneurial spirit.

1.2 In 2019, Government launched the Local Content Strategy, with the aim to increase domestic resource utilization and value addition and boost industrialization and exports. Key elements include preferential local procurement through, capacity building for local suppliers and research institutions, and identifying national sub-sectors' capacities.

1.3 There is renewed emphasis on the Buy Zimbabwe initiative to support production, procurement and consumption of locally produced goods and services to strengthen the country's industrialization agenda. This will stimulate the manufacturing sector to increase its productive capacity.

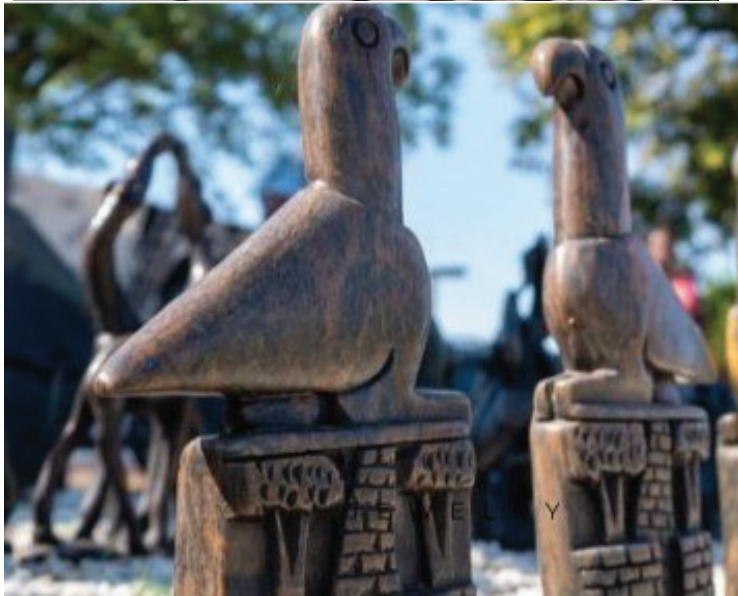

1.4 Supporting locally manufactured products strengthens the local economy by creating jobs and boosting community wealth, while also benefiting the environment through reduced transportation emissions and shorter supply chains. It can lead to higher quality, fresher products with greater transparency, and fosters a stronger sense of community by building direct relationships between businesses and consumers.

## 2.0 MANUFACTURING SUB-SECTORS IN ZIMBABWE

2.1 The following are some of the key sub-sectors responsible for producing local products.

- Arts and Crafts
- Beverages
- Bus and Truck
- Cement
- Chemicals and Chemical Products
- Clothing
- Confectioneries
- Cosmetics
- Dairy
- Detergents
- Edible Oils
- Electricals and Metals
- Food Products- Cereals
- Footwear
- Furniture
- Iron, Steel and Engineering
- Leather and Leather products
- Metallic Products
- Other Manufacturing: Seeds and Synthetic Hair
- Other Non-Metallic Mineral Products
- Paper and Printing and Publishing
- Pharmaceuticals
- Plastic and Packaging
- Rubber and Plastic Products
- Stock Feeds
- Sugar

# ARTS AND CRAFTS

*Arts industry contributing notably to economic growth*

## 3.0 ARTS AND CRAFTS

3.1 Zimbabwe's arts and manufacturing sector is driven largely by handcrafted products that reflect the country's cultural heritage. Key organisations include the National Handicraft Centre; Hippo Studio; Hodzeko Arts and Culture Association.

COMPANY	LOCATION/BRANCHES	PRODUCT

# CEMENT

## 6.0 CEMENT

6.1 Zimbabwe's cement industry is dominated by a few key local manufacturers that supply most of the country's construction market. The largest player is PPC Zimbabwe, Khaya Cement and Sino - Zimbabwe Cement Company. Newer entrants include Livetouch Cement, Huaxin Cement West International Holdings Zimbabwe (WIH-ZIM Cement Investments) and Shuntai Investments Private Limited.

*High quality cement locally produced to meet rising demand in the construction sector*

*Demand for cement is increasing due to construction of major projects and the general response by the industrial and commercial sector towards industrialisation*

# EDIBLE OILS

## 13.0 EDIBLE OILS

13.1 The Zimbabwean edible oils and fats sector is a core component of the country's manufacturing economy, dominated by a few large, integrated agro-processors that convert local oilseeds (soya bean, cotton, sunflower) into refined cooking oil, margarine, and essential by-products like soap and stock feeds.

COMPANY	LOCATION/ BRANCHES	PRODUCT

## 14.0 ELECTRICALS

14.1 The electrical manufacturing industry in Zimbabwe is a modest but strategically important sector, primarily focused on meeting local demand for cables, electrical conductors, and energy distribution equipment. This industry is crucial for supporting the country's power infrastructure, mining sector, and construction industry. The production of cables and winding wires constitutes the dominant segment of local electrical manufacturing. This domain is heavily led by CAFCA Holdings (Private) Limited, a major force in producing a wide range of copper and aluminum cables for power transmission, building wiring, and mining applications, making it a cornerstone of the domestic electrical value chain.

# FOOTWEAR

## 15.0 FOOTWEAR

15.1 The footwear manufacturing industry in Zimbabwe showcases a blend of resilience and adaptation, primarily serving the domestic market with a range of products from formal leather shoes to durable safety boots and casual sandals. While the sector has faced significant challenges from imported second-hand shoes and competition from new, cheaper Asian imports, local production continues to hold a vital niche. The manufacturing of robust leather safety footwear for the mining, industrial, and uniformed services sectors, alongside school shoes, dominates the local industry.

COMPANY	LOCATION/ BRANCHES	PRODUCT	MAXIMUM POSSIBLE OUTPUT
